EPIDEMICS ARE KILLING SERVA

Many Thousands Suffer from Typhus Alone; Thousands More Are Starving.

New York, April 29.—The nation of Serbia is dying from disease and starvation, according to a report made public Wednesday night by the Rockefeller Foundation's war relief commission. The report stated that on March 16 from 25,000 to 30,000 persons were suffering from typhus, and that other epidemics were rapidly enveloping the whole country.

Cholera was at that time expected with the arrival of warm weather and no preparations had been made to combat it, the report said. Probably 300,000 persons were destitute. Neither the Serbian government, absorbed in the war, nor the people themselves were able to control the situation, which the commission described as not only a "menace to the health of the Serbian people, but of the whole world."

Country Is Exhausted.
First describing general conditions in Serbia, the report states that the country has now, as the result of three successive wars, reached "a state of exhaustion in which it has practically nothing to give away to its own unfortunate."

The Serbian peasant in actual times is isolated and self sustaining. The country is economically and socially unevolved and organized. One railroad through the country is mainly occupied for military purposes and other roads are out of order. The most important of these is the Belgrade-Sofia line. The country's only connection with the outside world is the Greek port at Salonika. These and other circumstances are cited as difficulties in the way of relief.

The Serbian government, the report says,

EL PASOANS TELL OF FIRST JOBS

Some Taught School, Others Were Scouts and a Number Tried Railroad Work.

(Continued From Page One).

attributes the inception of typhus in Serbian prisoners.
The report continues:
About 250 refugees accepted a school building adjoining and in the enclosed grounds of a large church in Nish. The report says. Eleven small school rooms were used with the number of occupants in each ranging from 15 to 25. There were no beds.

Some of the refugees had filthy stables or straw, others had only this blanket of ragged quilts. Some lay on the bare floor. The building was under the charge of a janitor and his wife. He was an ignorant peasant, who saw no danger or means to the awful filth of the building and surrounding yard.

Not the slightest attempt was made to clean the place, inside or out.
"It is difficult to describe the condition of the people in this building in the language of restraint. The hall, doors and the stairways were foul and grew worse with each day's addition. In the rooms the people were huddled in family groups on the floor. The ravages of starvation and disease were appalling."

Mother and Baby Starving.
"There remains in our minds the picture of a baby, whose drawn face, the chin stretched sharply over the bones, gave an impression of toothless old age, clutching feebly at the breasts of a mother too weak to hold it. The woman in the room in which she lay usually there were three or four deaths every day."

The members of the commission it was obvious that several of the sick were dying. Disease and starvation were rapidly settling all problems for that unhappy group."

In fact, the commission was told that in the whole city a hundred patients of typhus died every day and that the force of grave diggers was inadequate to keep up with the work of burying the bodies.

Try "GETS-IT," It's Magic for Corns!

New, Simple, Common-Sense Way
You will never know how really easy it is to get rid of a corn until you have tried "GETS-IT." Nothing like it has ever been produced. It takes less time to apply it than it does to read this. It

Keeps Corn-pains in Every Nerve! Use "GETS-IT" It Gets Every Corn Surely, Quickly!

will disappear soon, especially if you have tried everything else for corns. Two drops applied in a few seconds—that's all. The corn shrivels, then comes right off, painlessly, without fussing or trouble. If you have ever made a fat bundle out of your toe with bandages; used thick corn-pressing cotton rings; corn-pulling salves; corn-treating plasters—well, you'll appreciate the difference when you use "GETS-IT." Your corn agony will vanish. Cutting and scolding with knives, razors, files and scissors, and the danger of blood-poison are done away with. Try "GETS-IT" tonight for corns, blisters, callus, wart or bunions. Never fails.

"GETS-IT" is sold by druggists everywhere. Get a bottle, or sent direct by E. Lawrence & Co., Chicago.—Advertisement.
